

## HOW YOUR CONTRIBUTIONS HELP NAMI HELP MONTANANS

Thanks to the generosity of the participants and donors involved in the Trans-Montana Charity Ride, NAMI Montana and its affiliates are able to provide a variety of services to fellow Montanans living with mental illness. All monies collected directly benefit individuals and their families through the provision of free education and support classes in communities across Montana. Additionally, NAMI Montana plays a critical leadership role in ensuring that state-level mental health efforts are developed and sustained in ways that truly impact communities.

Examples of NAMI Montana's efforts include:

- Advocating for adult crisis services that help support community crisis centers across the state.
- Launching a multi-year effort that successfully funded children's mental health crisis services in communities across Montana.
- Initiating the development of the Center for Mental Health Research and Recovery at Montana State University to bring cutting edge diagnostic and treatment techniques to Big Sky country.
- Facilitating dialogue between the Montana Veterans Administration ("Montana VA"), policy makers, and community mental health providers to ensure that the Montana VA maintains insurance reimbursement rates at a level that will avoid stranding hundreds of Montana Veterans in need of mental health services.

NAMI Montana has affiliate offices in: Billings, the Bitterroot Valley, Bozeman, Helena, Kalispell, the Mission Valley, and Missoula.
